GitHub: github.com/namithchowdary2 Mobile: +91-6304475233

Skills

- Languages: C, C++, Python, Java
- Web Technologies: HTML, CSS, JavaScript
- Tools/Platforms: MySQL, Git, GitHub
- Soft Skills: Leadership, Communication, Critical Thinking, Time Management, Adaptability

Projects

Online Learning Platform | **GitHub** Jan 2026

- Developed an interactive web-based learning platform for practicing Python with real-time code execution.
- Implemented user authentication (login/signup), progress tracking, and quiz-based assessments.
- Integrated an in-browser Python editor allowing users to write and test code directly on the platform.
- Built a Flask backend with SQLite database and responsive frontend pages.

Tech: Python, Flask, HTML, CSS, JavaScript, SQLite

ML - Based Smart Resource Conservation In Home Appliances | **GitHub** May 2025

- Built an ML model to predict real-time energy and water consumption for home appliances using Gradient Boosting / Decision Tree regression.
- Added anomaly detection and optimized-usage recommendations for efficient resource management.
- Developed a Flask web app with predictive outputs, efficiency insights, and bar-graph analytics backed by SQLite storage.

Tech: Python, Flask, Scikit-learn, HTML/CSS/JS, SQLite

Soil Clustering for Precision Farming | **GitHub** Apr *2025*

- Developed a machine learning model to analyze soil characteristics and group agricultural land using clustering techniques.
- Applied K-Means clustering to identify soil patterns based on nutrient composition and environmental factors.
- Visualized soil clusters to support data-driven crop selection and fertilizer planning for precision farming.

Tech**:** Python, Pandas, NumPy, Scikit-learn, Matplotlib

Training

Java and MySQL: Application Development – Summer Training **| LPU** | ***Certificate*** June 2025 – July 2025

- Aim: To gain practical experience in Java-based application development and understand how to build database-driven software systems using industry-standard tools and practices.
- What I Did: Learned and applied Java fundamentals, Object-Oriented Programming (OOP), collections framework, exception handling, and multithreading.
- Outcome: Gained strong hands-on experience in building database-integrated Java applications.

Tech: Java, OOP, JDBC, MySQL, Git, Maven, Collections, Exception Handling, Multithreading

Certificates

- Career Skills in Data Analytics | **LinkedIn** | **Certificate** October 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | **ORACLE** | **Certificate** October 2025
- Computational Theory: Language Principle & Finite Automata Theory | **Infosys** | **Certificate** August 2025
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | **Infosys** | **Certificate** August 2025
- HTML, CSS, and JavaScript | **Freecodecamp** | **Certificate** January 2024

Achievements

- Google Skill Badge — Introduction to Responsible AI (Google):
  Completed training on ethical AI, bias awareness, and responsible AI practices. November 2025
- Finalist – Hack-a-Throne 1.0 Hackathon:
  Reached the final round of the hackathon organized by GeeksforGeeks. October 2024

Education

Lovely Professional University Punjab, India
- Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.56** Present August 2023

Sri Chaitanya Junior College Vijayawada, Andhra Pradesh
- Intermediate; **Percentage: 92%** June 2021 - April 2023

Sri Chaitanya Techno School Vijayawada, Andhra Pradesh
- Matriculation; **Percentage: 99%** June 2020 - May 2021
